ADDITIONAL DEMOGRAPHIC DATA RESOURCES:

MDOC's Census and Economic Information Center (CEIC) -- An essential source for demographic data is MDOC's *Census and Economic Information Center (CEIC)*, 841-2740, <http://ceic.mt.gov>, the official source of U.S. Census data for Montana. CEIC is located within MDOC's Economic Development Division and assists individuals, businesses, governments, communities and economic development efforts by providing Montana demographic and economic information and statistics, as well as technical expertise. CEIC is the designated state agency to provide user access to electronic data from the Census Bureau and to receive, reproduce, and distribute maps produced by the Bureau. The Census & Economic Information Center's web site allows the public to research and gather data in an easily accessible manner.

CEIC compiles and updates the Montana County Statistical Reports, which can be found on-line at http://ceic.mt.gov/Demog_Profiles.asp. This is a collection of demographic and socioeconomic data for Montana and its 56 counties and all reservations. CEIC also maintains a collection of documents and electronic files that address the economy and population of the state (historical as well as current), including special papers and statistical reports from federal agencies and other Montana state agencies.

The **MDOC Housing Division** (<http://housing.mt.gov/index.asp>, 841-2840) maintains an *Economic and Demographic Databook* of historic and forecasted information by county -- including employment data, earned and unearned income, earnings by industry, and population by age cohorts both male and female. It can be found on-line at: http://housing.mt.gov/Hous_CP_E&D-Databook.asp

Economic and Demographic Analysis of Montana – 2005 and 2006 Updates -- *This* resource provides current economic and demographic information for Montana. Analyzing the economy, and assessing data pertaining to the demographic attributes that have changed since the 2000 Census, *Economic and Demographic Analysis of Montana* also contains an affordable housing index to help communities determine current affordability of housing in Montana; an identification of households and persons receiving food stamps by county; an identification of the labor force, employment and unemployment statistics; and current estimates on new housing construction in the state. It is available from the MDOC Housing Division (841-2840) and is also available on-line at: http://housing.mt.gov/Hous_CP_Econ_Demographic_Analysis.asp

**Montana Population by U.S. Census Bureau –
Counties, Incorporated Cities / Towns
and Census Designated Places (CDP's) – 1990 & 2000**

Census Designated Places (CDPs) are delineated for each decennial census as the statistical counterparts of incorporated places. CDPs are delineated to provide data for settled concentrations of population that are identifiable by name but are not legally incorporated under the laws of the state in which they are located.

The boundaries of CDPs usually are defined in cooperation with local and tribal officials. These boundaries, which usually coincide with visible features or the boundary of an adjacent incorporated place or other legal entity boundary, have no legal status, nor do these places have officials elected to serve traditional municipal functions.

Explanation of codes used in Appendix T charts:

[*] = CDP. Census designated places (CDPs) are delineated for each decennial census as the statistical counterparts of incorporated places. CDPs are delineated to provide data for settled concentrations of population that are identifiable by name but are not legally tribal

officials. These boundaries, which usually coincide with visible features or the boundary of an adjacent incorporated place or other legal entity boundary, have no legal status, nor do these places have officials elected to serve traditional municipal functions.

[**] = Consolidated city/county

[***] Colstrip was incorporated in 1998. It was a CDP in 1990, but the 1990 boundaries do not coincide with the new incorporated city.

[****] Boundaries of Census Designated Places (CDPs) may vary from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary. Census counts of Incorporated Places (cities and towns) reflect population change through both migration and land annexation.

[*****] The county equivalent of Yellowstone National Park (population 52 in 1990) has been merged into Gallatin County and Park County since 1990.

[--] Neither a CDP nor incorporated place in 1990.
